

September 2007

Dear Parents:

As the District's technology program continues to grow, the District is expanding its Web Site. This Web Site will allow the District to showcase student work including images of student activities, art work and even their voices and video clips of the students themselves.

We are aware that some parents might have concerns regarding the Internet and the placement of information about or pictures of their children on the Web Site as well as other district-created publications. In light of those concerns, the District will not place any information about a child on the District's Web Site, in newsletters, flyers or any district-created publication, without first obtaining parental consent.

Attached is a form acknowledging your receipt of this notice and notice of your choice in regard to your child's participation in the district-created publication; which includes full consent, refusal to consent or limited consent. If you have any questions, please call the building principal at 993-4000 ext. 3400 (Jr.-Sr. High School) or 993-4000 ext. 3533 (Harry Hoag School).

We request this form be returned to your child's principal's office as soon as possible. Please rest assured we will not publish any of your child's images, art work, voices or video clips until this form has been received.

Sincerely,

Douglas C. Burton  
Superintendent of Schools
